SUBJECT INDEX

Compiled by EMMA S. BUSS

Explanation: Numbers in heavy type refer to original articles, parenthetic numbers to abstracts

- Abducens, paresis of, 1053, (1184).
in multiple myeloma, (848).
- Abscess, of cornea, (487).
of lymph follicles of conjunctiva, (583).
of orbit, (357), (841).
with cellulitis, 928.
from pneumococcic conjunctivitis, 817.
of the sclera, (1077).
- Abstracts—
1. General methods of diagnosis, (221), (469), (709), (936), (1176), (1409).
 2. Therapeutics and operations, (222), (472), (711), (937), (1177), (1411).
 3. Physiologic optics, refraction, and color vision, (225), (474), (713), (938), (1179), (1413).
 4. Ocular movements, (227), (479), (715), (943), (1183), (1416).
 5. Conjunctiva, (229), (480), (582), (719), (829), (946), (1185).
 6. Cornea and sclera, (234), (341), (484), (584), (720), (830), (952), (1189).
 7. Uveal tract, sympathetic disease, and aqueous humor, (97), (239), (341), (487), (586), (722), (831), (955), (1192).
 8. Glaucoma and ocular tension, (98), (241), (342), (488), (587), (723), (833), (957), (1196), (1418).
 9. Crystalline lens, (99), (241), (343), (489), (589), (724), (836), (958), (1063), (1421).
 10. Retina and vitreous, (105), (242), (345), (491), (593), (725), (837), (960), (1064), (1287), (1424).
 11. Optic nerve and toxic amblyopias, (109), (350), (493), (597), (729), (839), (967), (1066), (1293).
 12. Visual tracts and centers, (112), (352), (494), (600), (839), (1067), (1294).
 13. Eyeball and orbit, (113), (355), (495), (601), (730), (841), (1069), (1294).
 14. Eyelids and lacrimal apparatus, (115), (359), (602), (731), (842), (1071), (1295).
 15. Tumors, (116), (360), (604), (732), (843), (1073), (1298).
 16. Injuries, (118), (362), (607), (845), (1077), (1300).
 17. Systemic diseases and parasites, (120), (363), (610), (847), (1080), (1302).
 18. Hygiene, sociology, education, and history, (121), (364), (612), (849), (1082), (1304).
 19. Anatomy, embryology, and comparative ophthalmology, (123), (368), (614), (850), (1086), (1306).
- Accessory nasal sinuses, see Nasal accessory sinuses.
- Accidents, abnormalities of eyes in traffic-court cases, (122).
and see Injuries.
- Accommodation, effect of, lenses and convergence on, (474).
valerian on, (1301).
ergographic study of, in intestinal auto-intoxication, (470).
Horner's syndrome and, (226).
measurement of, (1414).
spasm of, acute, (712).
- Acetylcholine, content of retina, (961).
effect of, on embolism of central retinal artery, (597).
on obstruction of retinal blood vessels, (964).
on optic atrophy and retinal disease, (1066).
Horner's syndrome from retrobulbar injection of, (964).
- Achromatopsia, see Color blindness.
- Actinomyces, concretions in lacrimal canaliculus from, (1072).
- Actinomycosis, retinal, and in lung and vertebrae, (1425).
- Adair-Dighton's syndrome, see Syndrome.
- Adaptation, dark, (964).
disturbances of liver function and, (346).
effect of, anoxemia on, (595).
melanophore hormone on, (105).
hemeralopia, and glaucoma, (346), 923.
mechanism of, (476).
and reduced oxygen tensions, (596).
in tuberculous choroiditis, (1195).
and vitamin A, (108), (109), 705, (727), 1325.
disturbances of, miner's nystagmus and, (1418).
